

# REFUND POLICY

**Due to the nature of digital goods, we do not offer refunds for any purchases.**

physical and digital products are fundamentally different in terms of returns. when a physical item is returned, the merchant can often recoup value by sending it back to the supplier. however, with digital products, especially once they've been accessed or used, a return represents a complete loss for the seller.

**therefore all sales are final and no refund will be issued**

**THANK YOU FOR YOUR UNDERSTANDING**
