End User Licence Agreement

Oracle Insights Ltd · Registered in England and Wales · Last updated: 29 August 2026

1. This agreement

This End User Licence Agreement ("EULA") is a legal agreement between you and Oracle Insights Ltd and governs your use of our software products, including our TradingView indicators and toolkits (the [Oracle+] Suite, QT Toolkit, tCISD indicator, SMT-Fill, Statistical Bias and any other indicators we publish), our OracleX journaling software, and any related scripts, code, updates and documentation (together, the "Software"). By purchasing, installing, enabling or using the Software you agree to this EULA. This EULA operates alongside our Terms of Service; where they conflict in relation to the Software, this EULA prevails.

2. Licence grant

Subject to your payment of the applicable fees and compliance with this EULA, we grant you a personal, non-exclusive, non-transferable, non-sublicensable, revocable licence to use the Software for your own personal trading and education, on accounts and devices you control, for the duration of your subscription or access period.

Indicator access is provisioned to the single TradingView username you supply. It is your responsibility to supply the correct username and to tell us if it changes.

3. What you must not do

You must not, and must not permit anyone else to: (a) share, resell, rent, lease, lend, sub-license or otherwise distribute the Software or access to it; (b) share the TradingView account that holds indicator access; (c) copy, reproduce or republish the Software or any of its outputs, logic, source code or documentation, except for your own personal records; (d) reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code, formulas, logic or methodology of the Software, except to the extent such restriction is prohibited by applicable law; (e) create derivative works, clones or competing products based on the Software or its concepts as implemented in code; (f) remove or alter any proprietary notices; or (g) use the Software for any unlawful purpose.

4. Ownership

The Software, and all intellectual property rights in it — including the underlying code, logic, design, names and branding (including "tCISD", "Oracle Insights", "[Oracle+]" and related marks) — are and remain the exclusive property of Oracle Insights Ltd. You are buying access, not the Software itself. No rights are granted except those expressly stated in this EULA.

5. Subscriptions, trials and termination

Software access runs on the subscription or access period you purchased through Whop and renews or expires per our Return & Refund Policy. Free trials convert to paid access unless cancelled before the trial ends.

We may suspend or terminate your licence immediately if you breach this EULA — in particular the sharing and reverse-engineering restrictions — or if you initiate an unwarranted chargeback. On termination, your access is removed (including removal of your TradingView username from invite-only scripts) and you must stop using the Software. Fees are not refunded on termination for breach.

6. Updates and availability

We may update, improve, or modify the Software at any time, and may add or retire features. We aim to keep the Software available and working with the platforms it runs on (for example TradingView), but we do not guarantee uninterrupted availability, and we are not responsible for outages, changes or limitations of those third-party platforms.

7. No financial advice; no performance guarantee

The Software is an educational and analytical tool. Its outputs — including any levels, markers, signals, statistics or bias readings — are informational only and are not financial advice, trade recommendations or a guarantee of any outcome. Trading involves substantial risk of loss. You are solely responsible for your trading decisions and their results.

8. Disclaimer and limitation of liability

The Software is provided "as is" without warranties of any kind, express or implied, including fitness for a particular purpose, accuracy of outputs, or error-free operation, except as required by law.

Nothing in this EULA excludes liability that cannot be excluded by law. Subject to that, Oracle Insights Ltd is not liable for any trading losses, loss of profit, loss of data, or indirect or consequential loss arising from use of (or inability to use) the Software, and our total aggregate liability in connection with the Software is limited to the fees you paid for it in the 12 months before the event giving rise to the claim. If you are a consumer, your statutory rights are unaffected.

9. General

This EULA is governed by the laws of England and Wales, and the courts of England and Wales have exclusive jurisdiction, except that consumers resident elsewhere retain the protection of, and may bring proceedings under, the mandatory laws of their country of residence. If any provision of this EULA is found unenforceable, the remainder continues in force. We may update this EULA from time to time; material changes will be notified through our services, and continued use after changes take effect constitutes acceptance.

10. Contact

Questions about this document can be raised via the Oracle Insights Discord support-ticket system (discord.com/invite/4KnsD9KmNy) or by email at buckotrades@oracleinsights.com.
