1. Agreement and covered Content

This End User Licence Agreement (EULA) is between you and Kendrick Debono and governs software-accessible and digital Content supplied through the Services, including courses, 4K videos, recordings, streams, playbooks, documents, graphics, audio, community archives and downloads. It supplements the Terms of Service. By accessing Content, you accept this EULA.

2. Licence grant

Your purchase gives you access; it does not transfer ownership of the Content.

Subject to payment, plan limits and compliance with the agreement, the Provider grants you a limited, personal, non-exclusive, non-transferable, non-sublicensable and revocable licence to stream, view and use the Content for your own non-commercial education during the access period stated at checkout.

You may make reasonable private notes. You may download a file only where an authorised download control is provided, and any downloaded copy remains subject to this EULA.

3. Access period and accounts

The licence is limited to one natural person and the authorised account. You may not share credentials or permit household members, employees, clients, friends or community members to use your access. Concurrent access, unusual device patterns and other security signals may be reviewed proportionately.

Access lasts for the paid subscription period or the expressly stated one-time access period, subject to the meaning of “lifetime access” in the Refund, Cancellation and Digital Content Policy and lawful suspension or discontinuation rights.

4. Prohibited conduct

- Copy, screen-record, capture, rip, download through unauthorised means or reproduce Content.
- Upload, publish, broadcast, stream, forward, sell, rent, sublicense, lend or otherwise redistribute Content or access.
- Share Content in another Discord server, messaging group, course, drive, website, social platform or file-sharing service.
- Remove, crop, blur, cover, alter or evade a watermark, copyright notice, metadata, access control or technological protection measure.
- Reverse engineer or interfere with a player, platform, authentication method or content-protection system, except to the narrow extent law expressly permits and cannot be waived.
- Use Content to build or market a competing course, paid community, signal service or substantially derived commercial product.
- Scrape, systematically extract, index, data-mine, or use Content to train, fine-tune, evaluate or ground an AI or machine-learning system without written permission.
- Misrepresent authorship, endorsement, affiliation or permission.

5. Watermarks and rights management

Content may include a centred disclaimer watermark, an account-linked visible identifier, invisible forensic marking, metadata or delivery logs. These measures protect the Content and help identify likely unauthorised distribution. You must not interfere with them.

Account-linked watermark and access information is processed for licence enforcement, fraud prevention and security as explained in the Privacy Notice. A watermark is evidential and will be assessed with other information; material decisions will receive human review where required.

6. Ownership and Brand Names

All intellectual-property rights remain with the Provider or relevant licensors. The names Kendrick, Kendrick Trades, Symmful, Symmful Trades, Premium, Playbook, Scalper's Code and Scalper's Code Playbook, course organisation, visual presentation and original materials are protected to the extent provided by law. No implied licence, title or ownership is granted.

Third-party quotations, charts, platform interfaces, market data and other materials remain the property of their respective owners and may carry additional restrictions.

7. Updates and availability

We may correct, update, reorganise or replace Content. Course access depends partly on third-party hosting and may be temporarily unavailable for maintenance, security or events beyond reasonable control. We will provide reasonable alternatives or remedies where the contract or mandatory law requires them.

8. User materials and notes

Your original notes and submissions remain yours. They do not give you ownership of the underlying Content or the right to reproduce substantial parts of it. If you submit feedback, examples or questions, the limited licence in the Terms of Service applies.

9. Enforcement and termination

A material breach may cause restriction or termination of this licence and account access. Where proportionate and lawful, we may preserve evidence, issue takedown notices, seek injunctive relief and recover provable losses and reasonable enforcement costs. Urgent action may be taken to stop active piracy or security compromise.

On termination, you must stop using Content and delete unauthorised or locally downloaded copies, except records you must retain by law. Terms concerning ownership, enforcement, disclaimers and accrued rights survive.

10. Educational and risk disclaimer

Content is general education, not financial advice, a recommendation or a promise of results. Market examples can become outdated and may contain errors. You are responsible for independent decisions, regulated professional advice where appropriate, and all trading or investment risk. Past, simulated and hypothetical performance does not predict future results.

11. Warranty and liability

Mandatory warranties and consumer remedies are not excluded. Otherwise, to the fullest extent permitted by law, Content is provided on an "as available" basis without a promise of uninterrupted access, individual suitability, accuracy at every moment or financial outcome.

The exclusions and liability cap in the Terms of Service apply to this EULA. Nothing limits liability that cannot lawfully be limited, including fraud, wilful misconduct, or death or personal injury caused by negligence.

12. Third-party platforms

Content may be delivered through Whop, Discord, Zoom and other providers. Their software and services are governed by their own licences and terms. This EULA does not grant rights in third-party software or excuse compliance with platform rules.

13. Governing law

This EULA and connected non-contractual obligations are governed by Maltese law. Mandatory protections of a consumer's habitual residence remain applicable where law requires. Subject to mandatory consumer-jurisdiction rules, Malta's courts have exclusive jurisdiction. The pre-dispute notice process in the Terms applies.

14. General terms

If this EULA conflicts with the Terms of Service, the Terms control except that a more specific licence restriction here controls the permitted use of Content. Invalid provisions are limited rather than invalidating the remainder. No waiver is effective merely because enforcement is delayed.

The Provider may assign this EULA with the Services to a company owned or controlled by the Provider or another lawful successor, subject to applicable notice, consent and consumer-protection requirements.

15. Contact

Licence questions or suspected piracy may be reported to **symmful@gmail.com**. Legal notices may also be sent to **41, Triq it-Torri, Msida MSD 1827, Malta**.
