

DIMANDEM

END USER LICENSE AGREEMENT (EULA)

Version: 1.0

Effective Date: July 8, 2026

1. Introduction

This End User License Agreement ("EULA") establishes the terms under which Dimandem grants the Licensee permission to use licensed music products.

By purchasing, downloading, accessing or using any Dimandem product, the Licensee agrees to be bound by this EULA, the purchased license type and the Dimandem Licensing Standard v1.0.

If the Licensee does not agree with these terms, the licensed materials must not be used.

2. Parties

This agreement is between:

Licensor:

Dmytro Demchenko, operating under the brand Dimandem.

and

Licensee:

The individual or organization that lawfully purchases or receives a valid license to use Dimandem products.

3. Grant of License

Subject to payment of the applicable license fee, Dimandem grants the Licensee a limited, non-exclusive, non-transferable and non-sublicensable license to use the licensed music according to the purchased license type.

The Licensee receives only the rights expressly granted under the applicable license.

No additional rights are granted unless explicitly provided in writing by Dimandem.

4. Ownership Rights

All rights, title and interest in the licensed music remain with the Copyright Owner.

The Licensee does not receive ownership of:

- Music compositions;
- Sound recordings;
- Master rights;
- Copyright;
- Publishing rights;
- Intellectual property rights.

The purchase of a license grants permission to use the music, not ownership of the music.

5. Permitted Use

The Licensee may synchronize and use the licensed music with eligible projects according to the purchased license.

Permitted use depends on the selected license type:

- Personal License;
- Standard License;
- Premium License.

Each license provides different levels of usage rights as described in the Dimandem Licensing Standard v1.0.

6. Restrictions

Unless specifically permitted by the purchased license, the Licensee may not:

- Sell or redistribute the music as a standalone product;
- Share original files with third parties;
- Transfer the license to another person or organization;
- Sublicense the music;

- Claim authorship of the music;
- Register the music as their own creation;
- Upload the music to music streaming or distribution platforms;
- Register the music in copyright identification systems;
- Use the music for unauthorized AI training or machine learning purposes;
- Create competing music libraries using Dimandem materials.

7. Commercial Use

Commercial usage rights depend on the purchased license type.

The Licensee must obtain an appropriate license before using Dimandem music in projects requiring broader commercial permissions.

Examples may include:

- Advertising campaigns;
- Brand content;
- Client projects;
- Applications;
- Games;
- Commercial productions.

The applicable license determines whether such use is permitted.

8. Content ID and Copyright Management Systems

The Licensee may not register Dimandem music with YouTube Content ID or similar copyright management systems unless explicitly authorized in writing by Dimandem.

If a valid Licensee receives an automated copyright claim while using the music according to their purchased license, they may contact:

dimandem.support@gmail.com

Dimandem may assist with claim review and verification.

9. License Verification

The Licensee may be required to provide proof of purchase, including:

- Order ID;
- Purchase confirmation;
- Email address associated with purchase;
- License information.

Dimandem may request this information to verify authorized use.

10. Termination of License

Dimandem may terminate the license if the Licensee:

- Violates this EULA;
- Uses the music outside the purchased license scope;
- Redistributes or resells licensed materials;
- Attempts to claim ownership of Dimandem music.

Upon termination, the Licensee must stop all unauthorized use of the licensed materials.

11. Disclaimer

Dimandem provides licensed music on an "as available" basis.

Dimandem does not guarantee:

- Specific commercial results;
- Monetization approval;
- Audience growth;
- Financial success.

The Licensee is responsible for ensuring that their project complies with applicable laws and platform rules.

12. Agreement With Licensing Standard

This EULA must be interpreted together with:

Dimandem Licensing Standard v1.0

If there is any conflict, the applicable licensing terms and written permissions provided by Dimandem shall govern.

13. Changes to This EULA

Dimandem may update this EULA when necessary.

Updated versions will include:

- New version number;
- Updated effective date.

14. Contact Information

Brand:

Dimandem

Copyright Owner (Licensor):

Dmytro Demchenko
