

CloudForge Kits — End User License Agreement

Last updated

September 10, 2026

1. Grant of License

After purchase, CloudForge Kits grants a non-exclusive, non-transferable license to use the AWS Cloud Infrastructure Starter Kit. You may use and modify it for personal or commercial projects.

2. Commercial Use

You may incorporate the Product into applications, websites, infrastructure, and client projects and charge clients for resulting work.

3. Redistribution

You may not redistribute, resell, sublicense, or publish the original Product or substantially unchanged portions as a competing standalone digital product, or make the purchased ZIP publicly downloadable.

4. Modification

You may modify, adapt, extend, and combine the Product with other software and infrastructure. Modified resulting projects may be used commercially.

5. Third-Party Components

Third-party software, libraries, Terraform providers, AWS services, GitHub Actions, and other components remain subject to their own licenses and terms.

6. AWS Responsibility

You are responsible for your AWS account, credentials, billing, configuration, security, access controls, data, monitoring, and compliance. CloudForge Kits does not control your AWS account.

7. No Warranty

The Product is provided 'as is' and 'as available' to the maximum extent permitted by law. Compatibility, suitability, and uninterrupted operation are not guaranteed.

8. Security

Review security settings before deployment. Do not use sample credentials, permissions, or infrastructure settings without evaluating them for your environment.

9. Termination

The license terminates if you materially violate this EULA. Upon termination, stop using and redistributing the Product to the extent required by applicable law.

10. Intellectual Property

Except for rights expressly granted here, CloudForge Kits retains rights in the original Product and associated intellectual property.

11. Limitation of Liability

To the maximum extent permitted by law, CloudForge Kits will not be liable for indirect, incidental, consequential, or special damages. Nothing limits liability that cannot legally be limited.
