

Terms of Service

ShipAI — last updated 27 September 2026

1. Agreement

By purchasing or downloading any product from ShipAI, you agree to these terms. If you do not agree, do not purchase or use our products.

2. What we sell

We sell digital software products: source code repositories, developer tooling bundles, and starter templates, delivered electronically. Nothing physical is shipped.

3. Licence to use

On payment, we grant you a perpetual, worldwide, non-exclusive licence to use, copy, modify and build upon the delivered source code for your own personal or commercial projects.

You may **not**:

- resell, sublicense, or redistribute the source code as a competing product or template pack;
- publish the source code publicly, in whole or in substantial part;
- remove or obscure copyright notices.

You **may** use the code in client work and in products you sell, provided the code is not itself the product being resold.

4. Delivery

Digital delivery is automated and immediate after successful payment verification. If you do not receive access, contact us and we will resolve it.

5. Support

Support scope depends on the tier purchased. The Complete Bundle includes priority support; other tiers are delivered as-is. Support is provided on a reasonable-efforts basis and does not guarantee that any particular bug or request will be addressed.

6. No warranty

Products are provided as-is, without warranty of any kind, express or implied, including fitness for a particular purpose. You are responsible for evaluating whether a product suits your needs before purchasing.

7. Limitation of liability

To the maximum extent permitted by law, our total liability arising from any purchase is limited to the amount you paid for that product.

8. Changes

We may update these terms. The version in force at the time of your purchase governs that purchase.

9. Contact

Questions about these terms should be directed through the contact options on our Whop storefront.
