

Membership Risk Disclaimer and Terms

Effective for ACT Membership, including the 14-day free trial. You must accept this disclaimer before joining.

1. Education only, not financial advice

ACT provides trading education, live market commentary, community access, and an optional TradingView indicator. None of this is personalized investment, tax, or legal advice. ACT, Andrew Chavez, and any instructors, affiliates, or members are not registered investment advisers, broker-dealers, or commodity trading advisors. You are solely responsible for every trade, order, and account decision you make.

2. Trading is high risk

Day trading, futures, options, forex, crypto, and similar markets can result in rapid and total loss of capital. You can lose more than you intend. Past results, screenshots, win rates, payout examples, and other members' outcomes do not predict your results. No strategy, signal, indicator, or stream eliminates risk.

3. Signals, streams, and the ACT indicator

Live signals, chat ideas, and the invite-only ACT TradingView indicator are tools for education. They can be delayed, incomplete, wrong, or unavailable. You must independently confirm every idea, set your own risk, and never trade money you cannot afford to lose. Indicator access is granted after you join and may be removed if your membership ends.

4. No guarantees

ACT does not guarantee profits, funded-account passes, payouts, or any specific return. Testimonials and examples are not typical. You may lose money even if you follow the process exactly.

5. Free trial and billing

The 14-day free trial still requires you to accept this disclaimer and provide a payment method. If you do not cancel before the trial ends, you will be charged the then-current membership price on a recurring basis until you cancel. Cancel anytime from your Whop account. Trading losses are not grounds for a refund.

6. Eligibility

You must be at least 18 years old. You confirm you are joining of your own free will, understand the risks of speculative trading, and will comply with the laws of your jurisdiction, including any rules of a prop firm or broker you use.

7. Community rules

Do not share paid content, signals, recordings, or the indicator with non-members. Do not give financial advice to other members. ACT may suspend access for abuse, chargebacks, or leaking content.

8. Limitation of liability

To the fullest extent allowed by law, ACT and Andrew Chavez are not liable for trading losses, missed trades, platform downtime, indicator errors, or any indirect or consequential damages arising from your use of the membership. Membership fees pay for access to educational content, not for investment results.

9. Acceptance

By checking the box at checkout and starting the free trial or paid membership, you acknowledge that you have read this disclaimer, understand it, and agree to be bound by it. If you do not agree, do not join.

ACT (acttrading on Whop). This document is a membership risk disclaimer. It is not a substitute for advice from your own attorney.
