

License terms

One license for every buyer. Use it in your own roofing company, or install it for as many clients as you want.

You can

- Use everything in your own company, all locations
- Install it in unlimited client accounts
- Remove our name and put your brand on it
- Charge clients for setup and management
- Edit anything and keep every ad and page you make

You can't

- Sell or give away the kit itself as a product
- Post the snapshot link, prompts or files publicly
- Use our name or our results in your marketing
- Claim the results in our marketing as your own
- Get a refund after the snapshot has been imported

Appointment Owner Kit License

These terms are between you and Dear Summer Records LLC, doing business as Starweb Digital ("we," "us"). "You" means the person or company that bought the Kit. By buying or using the Kit you agree to these terms.

1. What you are buying

"The Kit" means everything delivered with your purchase: the GoHighLevel snapshot, page templates, AI ad prompts, ad angle and copy library, guides, scorecard, 90-day plan, walkthrough videos, and any updates we send. You are buying a license to use the Kit. You are not buying ownership of it.

2. What you can do

1. Use the Kit in your own business, including all of its locations.
2. Use the Kit for an unlimited number of clients.
3. Install the snapshot into GoHighLevel accounts you own, accounts you manage, and accounts your clients own.
4. White-label it: remove our name, add your own branding, and present the installed system, the ads, and the pages as your own work or as part of your services.
5. Edit and customize anything in the Kit.
6. Use the prompts to make ads for your business or your clients and run them anywhere.
7. Charge your clients whatever you choose for setup, management, ad creation, or related services.
8. Let your employees and contractors use the Kit on your behalf.

3. What you can't do

1. Sell, rent, give away, or distribute the Kit itself as a product, including as a snapshot, template, prompt pack, course, membership, or listing in any template store or marketplace. What you deliver to a client must be a service or an installed system, not a copy of the Kit for them to pass on.
2. Post or share the snapshot link, the prompts, or the files publicly, or with anyone other than your team and the clients you install the Kit for.
3. Use the name "Starweb Digital," our branding, or the results described in our marketing in your own marketing or sales materials.

4. Present the results described in our marketing (for example, closed-roof revenue or ad spend figures) as your own results.
5. Transfer this license or sublicense it to anyone, except as described in section 4.

4. Your clients

A client you install the Kit for may keep using what was installed in their own business, including after they stop working with you. They may not copy, share, or resell it. You are responsible for making sure your clients follow this section.

5. Who owns what

We keep all rights to the Kit. You and your clients own the ads, pages, and other materials you create with it, except for the parts of the Kit itself inside them.

6. No guaranteed results

Any numbers in our marketing come from one company's results over a specific period. They are not a promise or a typical outcome, and you may not promise them to your clients on our behalf. Your results depend on your market, offer, budget, sales process, and many things outside our control. We do not guarantee any number of leads, appointments, jobs, or revenue for you or your clients.

7. Third-party tools and your compliance

The Kit works with tools we don't own or control, such as GoHighLevel, ChatGPT and other AI image tools, and Meta (Facebook and Instagram). Those tools have their own terms and fees, and they can change at any time. We are not responsible for them or for changes that affect how the Kit works.

AI tools can make mistakes. Review every image and piece of copy before you publish it, including prices, spelling, and logos.

You are responsible for the advertising and messaging you run, for your business or for your clients, being legal and true. That includes: only making claims that are true for the business in the ad; getting proper consent before texting or calling anyone (including TCPA and A2P registration rules); following Meta's advertising policies, including AI-content disclosure; and following the state contractor and insurance advertising rules that apply to each business.

8. Updates

You get free updates to the Kit, such as new or revised prompts, angles, guides, and techniques, for 12 months from your purchase date. We decide what goes into updates and when they are released. After 12 months you keep everything you already have.

9. Refunds

If you are not happy with the Kit, email markus@starwebdigital.com within 14 days of purchase for a full refund, as long as the snapshot has not been imported into any GoHighLevel account. Once the snapshot has been imported, the purchase is final. When you are refunded, your license ends and you must delete the Kit and its files.

10. Ending the license

If you break these terms, your license ends automatically. You must stop using the Kit and stop installing it for new clients. Clients who received an installed system before the license ended may keep using it under section 4. Sections 4, 5, 6, 7, 11, and 12 still apply after that.

11. Warranty and liability

The Kit is provided "as is," without warranties of any kind, to the fullest extent the law allows. Our total liability for anything related to the Kit is limited to the amount you paid for it. We are not liable for indirect or consequential losses, including lost

profits, ad spend, client claims, or business interruption.

12. General

These terms are governed by the laws of the State of New York. If any part is found unenforceable, the rest still applies. This is the entire agreement about the Kit license. Questions: markus@starwebdigital.com.
