Terms of Service

Live2D model commissions · effective 3 November 2026 · version 1.2

1. Terms of Service

- I reserve the right to refuse any commission request at my discretion. Submitting a request does not guarantee acceptance.
- The commissioned model follows my advertised style, with specific style requests considered if discussed in advance.
- A non-refundable initial payment is required to begin the project.
- **Model files are delivered only after the final payment has been received.**
- You receive a Live2D model file (.moc3) ready for use in VTube Studio.
- The Live2D work file (.cmo3) is not provided.
- Estimated completion time is 4–8 weeks.

2. Model usage, rights and policy

- You keep ownership of your character and its underlying intellectual property. I keep copyright in the original model artwork, rigging and source files, excluding your underlying character IP. Commissioning the model does not transfer copyright in my work to you.
- You are granted a non-exclusive, non-transferable licence to use the model for personal and commercial purposes, including monetised streams, content creation, advertisements and merchandise featuring it. The licence does not permit selling or distributing the model or source files.
- Credit to @chiwarazem is optional, but attribution is not: you may not claim to have drawn, rigged or otherwise created the model, or present my work as your own.
- You may not share, redistribute, sublicense, sell or transfer the model files, source files or licence to another person without my prior written permission. These restrictions apply to the model, not to your ownership of the character. Transferring the character does not automatically transfer the right to use the model.
- You may request modifications, such as additional outfits or features. Additional fees may apply depending on the scope of the request.
- You must get my prior written permission before another artist or rigger modifies the model, or before giving them the model files or source files. Source files are not included unless expressly agreed, and I may approve or decline requests for access at my discretion.
- I keep the right to showcase the model in my portfolio and on social media. If you ask that it not be shown until a specific date, such as before your debut, I can withhold WIPs, sketches and progress posts until then. Withholding it indefinitely carries an additional fee for the lost exposure.

3. Payments

- A non-refundable initial payment is required to begin the commission.
- Two payment options are available: 100% upfront, or a 50% deposit with the remaining 50% on completion.
- **Final files are delivered only once 100% of the payment has been made.**
- Accepted methods are bank transfer or card payment, processed through Whop.

4. Refund policy

- There are no refunds once the project has started.
- Refunds may only be possible if I have not started the project, if I am not able to complete it, or if I am the one initiating the refund.

Acceptance

Paying the initial payment confirms that you have read and accept these terms.
