Privacy Policy

What I do with your information · effective 3 November 2026 · version 1.2

Only what a commission needs, kept only as long as it's needed.

What I keep

Your name or handle, your contact details, the references you send, our messages, payment confirmations and invoice records, and the files I deliver.

Why

To quote, plan and deliver the commission, to answer you, and to keep the accounting and tax records I'm required to keep. Nothing else. I don't sell your data or use it for marketing.

Payments

Whop processes payments. I see the amount and the confirmation, not your card details.

Who else sees it

The platform you contacted me on — VGen, Discord, Carrd or Whop — under its own privacy policy. Nobody else, unless the law requires it.

How long

While the commission runs, then for as long as records have to be kept. After that it's deleted.

Your choices

Ask what I hold, have it corrected, or ask me to delete it. I'll do it unless a record has to be kept. Withdrawing consent can mean the commission can't continue.

Minors and security

18 or over, or a parent or guardian agrees on your behalf. Files and messages sit on accounts I control and I take reasonable care with them, though no system is perfectly secure.
