

# End User License Agreement (EULA)

Last Updated: February 2026

---

## 1. Agreement to Terms

This End User License Agreement ("EULA") is a legal agreement between you ("User") and Cryptohub ("Licensor") governing your use of all Cryptohub content, tools, educational materials, and community services (collectively, the "Licensed Material"). By accessing the Licensed Material, you agree to be bound by this EULA.

## 2. License Grant

Cryptohub grants you a limited, non-exclusive, non-transferable, revocable license to access and use the Licensed Material for personal, non-commercial, educational purposes only, subject to the terms of this EULA and your active subscription.

## 3. License Restrictions

You may NOT:

- Copy, reproduce, distribute, or share any Licensed Material with non-subscribers
- Record, screenshot, or capture live trading sessions or premium content for redistribution
- Use the Licensed Material to operate or support a competing service
- Reverse engineer, decompile, or attempt to extract source code from any tools or software provided
- Remove or alter any proprietary notices, watermarks, or branding
- Use automated tools, bots, scrapers, or similar technology to access or extract Licensed Material
- Sublicense, sell, lease, or commercially exploit the Licensed Material
- Share account credentials or allow others to access the Service through your account

## 4. Intellectual Property

All Licensed Material is and remains the exclusive intellectual property of Cryptohub and its respective contributors. Your subscription grants a license to access, not ownership of, the Licensed Material.

## 5. Not Financial Advice

All Licensed Material is for educational and informational purposes only. Nothing provided by Cryptohub constitutes financial, investment, legal, or tax advice. You are solely responsible for your own trading and investment decisions. See our Terms of Service for full risk disclosure.

## 6. No Warranties

The Licensed Material is provided "as is" and "as available" without warranties of any kind, either express or implied, including but not limited to warranties of merchantability, fitness for a particular purpose, accuracy, or non-infringement.

Cryptohub does not warrant that:

- The Licensed Material will be error-free or uninterrupted
- Any trade setups or analysis will result in profits
- The content will be accurate, complete, or current at all times

## **7. Limitation of Liability**

To the maximum extent permitted by law, Cryptohub shall not be liable for any direct, indirect, incidental, consequential, special, or punitive damages arising from your use of or inability to use the Licensed Material, including but not limited to financial losses from trading decisions.

Cryptohub's total cumulative liability shall not exceed the total fees paid by you during the twelve (12) months preceding the event, or one hundred US dollars (USD \$100), whichever is greater.

## **8. Termination**

This license is effective until terminated. Cryptohub may terminate this EULA and your access immediately if you breach any term of this agreement. Upon termination:

- Your right to access the Licensed Material ceases immediately
- You must destroy any copies of Licensed Material in your possession
- No refund will be issued for terminations due to breach

Sections relating to intellectual property, limitation of liability, and indemnification survive termination.

## **9. Indemnification**

You agree to indemnify, defend, and hold harmless Cryptohub and its owner, moderators, and contributing traders from all claims, damages, losses, liabilities, costs, and expenses arising from your use of the Licensed Material or violation of this EULA.

## **10. Modifications**

Cryptohub reserves the right to modify this EULA at any time. Material changes will be communicated through our Discord server or website. Continued use of the Licensed Material constitutes acceptance of the modified EULA.

## **11. Governing Law & Legal Entity**

This EULA is governed by the laws of Norway. Any disputes shall be resolved through good-faith negotiation and, if necessary, through appropriate legal channels.

Cryptohub is owned and operated by a company registered in Norway. The brand "Cryptohub" is used for all customer-facing communication, products, and services.
