

Community Safety Policy

Members may not use this community, events, calls, chats, DMs, or related spaces to harass, threaten, stalk, coerce, sexually pressure, manipulate, exploit, isolate, medically pressure, financially exploit, or otherwise make another member unsafe.

Any report involving sexual misconduct, coercion, threats, harassment, stalking, exploitation, or unsafe member-to-member conduct may result in immediate suspension or removal from all community spaces, products, events, and memberships, with refund eligibility determined at our discretion and/or in accordance with platform policy and applicable law.

We do not adjudicate criminal claims inside the community. We may preserve records, restrict access, cooperate with platform review, and provide information to law enforcement when appropriate or legally required.

Members are responsible for their own conduct inside and outside the community. Access to this community is a privilege, not a right.
