

Terms of Service

Bravo Backtest ICT Indicator

Last Updated: 19 June 2026

These Terms of Service govern your purchase, access, and use of the Bravo Backtest ICT Indicator, provided by Bravo Backtest. By purchasing or using the Bravo Backtest ICT Indicator, you agree to these Terms.

1. Product Description

The Bravo Backtest ICT Indicator is a TradingView-based indicator designed to display ICT-style chart visuals, including but not limited to SMTs, FVGs, iFVGs, Equal Highs/Lows, Liquidity Sweeps, Sessions, and other market structure-related visuals.

The indicator may display visuals from multiple timeframes on the same chart and is designed to assist users in identifying potential confluences.

The Bravo Backtest ICT Indicator is provided as a technical analysis tool only. It does not place trades, manage trades, guarantee trade outcomes, or provide personalised financial advice.

2. No Financial Advice

The Bravo Backtest ICT Indicator is provided for educational and informational purposes only.

Nothing provided by Bravo Backtest, the Bravo Backtest ICT Indicator, our website, our social media pages, our Whop page, or our support messages should be considered financial advice, investment advice, trading advice, or a recommendation to buy or sell any financial instrument.

Trading involves risk. You are fully responsible for your own trading decisions, risk management, account management, and results.

We do not guarantee profits, funded account passes, trading success, or any specific financial outcome.

3. Trading Risk Disclaimer

You understand and agree that trading forex, futures, commodities, indices, crypto, stocks, CFDs, or any other financial markets involves significant risk.

Past performance, backtests, examples, screenshots, testimonials, or marketing material do not guarantee future results.

You should not trade with money you cannot afford to lose.

4. Access to the Indicator

Access to the Bravo Backtest ICT Indicator is provided through TradingView as an invite-only script.

To receive access, you must provide your correct TradingView username exactly as it appears on TradingView.

If you provide the wrong TradingView username, access may be delayed. You are responsible for making sure your TradingView username is correct.

Access may be granted manually or through the connected access system used by Bravo Backtest. Delays may occur due to incorrect information, platform issues, payment issues, or other technical problems.

5. One-Time Payment and Access

Purchases may be processed through Whop or another approved payment platform.

By purchasing, you agree to the one-time purchase price and payment terms shown at checkout.

The Bravo Backtest ICT Indicator is sold as a one-time digital product purchase. There are no recurring charges from Bravo Backtest for this purchase unless a separate new product, upgrade, add-on, or payment option is clearly offered and accepted by you in the future.

After a valid purchase, access to the indicator may remain available unless your access is removed under these Terms, the product is discontinued, access is affected by TradingView or another platform, or another issue outside our reasonable control prevents access.

Failure to pay, chargebacks, payment disputes, or fraudulent payment activity may result in your access being removed.

6. Refund Policy

Because the Bravo Backtest ICT Indicator is a digital product with access granted after purchase, all sales are generally final unless stated otherwise on our Whop page, required by law, or approved by us at our discretion.

Refunds may be considered in cases such as:

- Duplicate payments.
- You were charged incorrectly.
- Access was not delivered due to an issue on our side.
- Other situations we decide are valid at our discretion.

Refunds are not guaranteed for reasons such as:

- You changed your mind.
- You did not use the indicator.
- You expected guaranteed profits.
- You did not understand how to use TradingView.
- You provided the wrong TradingView username.
- You experienced trading losses.

Nothing in this policy limits any legal consumer rights that may apply in your country.

7. No Recurring Billing or Cancellation Requirement

The Bravo Backtest ICT Indicator is currently sold as a one-time payment, not a recurring payment product.

Because this purchase does not renew automatically, there is no ongoing Bravo Backtest billing plan to cancel for this product.

If a payment platform incorrectly shows a recurring plan, renewal, or future charge for this specific product, contact us or the payment platform before completing your purchase or as soon as possible after noticing the issue.

8. TradingView Account Requirement

You need a TradingView account to use the Bravo Backtest ICT Indicator.

We are not responsible for TradingView account issues, TradingView plan issues, platform downtime, charting limitations, script limitations, invite-only access display issues, or any changes TradingView makes to its platform.

If TradingView changes its rules, systems, Pine Script limitations, or access controls, the Bravo Backtest ICT Indicator may be affected.

9. Acceptable Use

You agree not to:

- Share, resell, rent, sublicense, or redistribute access to the Bravo Backtest ICT Indicator.
- Copy, reverse engineer, decompile, reproduce, or attempt to extract the indicator's code.
- Share private access with another person.

- Claim ownership of the Bravo Backtest ICT Indicator.
- Use the Bravo Backtest ICT Indicator for any illegal or abusive purpose.
- Attempt to bypass our access controls or payment systems.
- Publicly leak private settings, protected logic, or restricted materials.

Violation of these rules may result in immediate removal of access without refund.

10. Intellectual Property

The Bravo Backtest ICT Indicator, including its code, visuals, branding, settings, structure, design, names, descriptions, and related materials, belongs to Bravo Backtest unless otherwise stated.

Purchasing access gives you a limited, non-transferable, non-exclusive right to use the indicator for your own personal trading or analysis.

You do not receive ownership of the indicator, its code, its logic, or any related intellectual property.

11. Updates and Changes

We may update, improve, modify, remove, or replace parts of the Bravo Backtest ICT Indicator at any time.

Updates may change how visuals appear, how features work, or how the indicator performs.

We aim to improve the product over time, but we do not guarantee that every feature will remain unchanged forever.

12. Accuracy and Availability

We aim to keep the Bravo Backtest ICT Indicator working properly, but we do not guarantee that it will always be error-free, uninterrupted, or available.

Charting indicators can be affected by TradingView data, broker feeds, timeframe behaviour, market closures, Pine Script limitations, and other technical factors.

You are responsible for verifying information before making trading decisions.

13. Support

Support may be provided through Instagram DM, Whop, email, Discord, or another channel selected by Bravo Backtest.

Support is provided for product access, setup help, and general usage questions.

Support does not include personal trading advice, trade signals, account management, financial advice, or guaranteed strategy guidance.

14. Affiliate Codes and Promotions

We may work with affiliates, influencers, or partners who promote the Bravo Backtest ICT Indicator using discount codes or referral links.

Discounts, commissions, or promotional offers may change at any time.

Using an affiliate code does not change the risk disclaimer, refund policy, or your responsibility for your own trading decisions.

15. Termination of Access

We may suspend or remove your access without refund if:

- You violate these Terms.
- You attempt to share, resell, or leak the indicator.
- You abuse support or act dishonestly.

- Your payment fails or is disputed.
- You file a fraudulent chargeback.
- We are required to do so by TradingView, Whop, law, or another platform.

16. Limitation of Liability

To the maximum extent allowed by law, Bravo Backtest will not be liable for trading losses, lost profits, account failures, funded account failures, missed opportunities, technical issues, platform issues, data issues, or any indirect or consequential damages.

Your use of the Bravo Backtest ICT Indicator is at your own risk.

17. User Responsibility

By using the Bravo Backtest ICT Indicator, you agree that:

- You are responsible for your own trading decisions.
- You understand trading involves risk.
- You will not rely on the indicator as your only reason to enter or exit trades.
- You will test and understand the tool before using it live.
- You will use proper risk management.

18. Changes to These Terms

We may update these Terms at any time.

The latest version will apply once posted on our website, Whop page, or other official Bravo Backtest platform.

Continued use of the Bravo Backtest ICT Indicator after changes means you accept the updated Terms.

19. Contact

For support, questions, or access issues, contact us through:

- Instagram: @bravobacktest
- Whop: @bravobacktest
- Email: contact@bravobacktest.com

Checkout Agreement Text

By purchasing the Bravo Backtest ICT Indicator, you agree that this is a one-time digital TradingView indicator purchase provided for educational and informational purposes only. It is not financial advice and does not guarantee profits, funded account passes, or trading success. You are responsible for your own trading decisions and risk management. Access is provided through your TradingView username, which must be entered correctly. Due to the digital nature of the product, all sales are generally final unless required by law or approved at our discretion. Sharing, reselling, copying, leaking, or attempting to reverse engineer the indicator is strictly prohibited and may result in access being removed without refund.
