5. International Platforms and Transfers

Some of the platforms we use, such as TradingView, Whop, email providers, website providers, analytics tools, or payment processors, may store or process information outside South Africa. By subscribing to or using the Bravo Concepts ICT

Indicator, you understand that your information may be processed in other countries where those service providers operate.

6. Data Security

We take reasonable steps to protect personal information against loss, unauthorised access, misuse, disclosure, alteration, or destruction. However, no online system, website, payment platform, email system, or third-party service can be guaranteed to be completely secure.

7. Data Retention

We keep personal information only for as long as reasonably necessary for the purposes described in this Privacy Policy, including managing an active subscription, providing access and support, maintaining payment and renewal records, handling cancellations, refunds and disputes, preventing fraud, complying with legal or tax obligations, and keeping appropriate business records.

Cancelling your subscription does not necessarily result in the immediate deletion of all information. We may retain transaction, support, fraud-prevention, and legal records after access ends where reasonably necessary or legally required. When information is no longer needed, we may delete, anonymise, or securely retain it where legally required.

8. Your Rights

Depending on the laws that apply to you, you may have rights to access, correct, update, delete, object to, or restrict certain uses of your personal information. You may also ask us what personal information we hold about you and request that incorrect information be corrected.

9. Marketing and Service Communications

We may contact customers about important product updates, indicator edits or feature changes, subscription or renewal issues, access issues, policy changes, security matters, or other service-related matters. These messages may be necessary to provide and manage the subscription.

We will not intentionally send unrelated marketing messages without a valid reason or required consent. If we send optional marketing emails, you may unsubscribe or ask us to stop sending those messages. Unsubscribing from marketing does not prevent essential subscription, billing, security, access, or policy communications.
