TERMS OF SERVICE & END-USER LICENSE AGREEMENT

OPERATING ENTITY: V888 Collective LLC (“Company,” “We,” “Us,” or “Our”)

EFFECTIVE DATE: Current

By purchasing, subscribing to, accessing, or utilizing any proprietary software, trading indicators, automated strategies, digital content, or associated community spaces provided by V888 Collective LLC (including, but not limited to, *The Powerhouse Attraction V888 System*), the individual or entity accessing the services (“User,” “Subscriber,” or “You”) agrees to be legally bound by the terms, conditions, and notices contained herein.

SECTION 1: SCOPE OF SOFTWARE LICENSE & SELF-SERVICE BOUNDARIES

- **1.1 Self-Service Digital Product:** All software applications, custom scripts, indicators, and automated execution parameters provided by V888 Collective LLC are delivered strictly as self-service digital goods. Upon purchase, User is provided with access to written manuals, video documentation, and instructional materials outlining setup and operation.
- **1.2 Exclusion of Individualized Support & Coaching:** The license granted herein covers software access and standardized technical documentation only. V888 Collective LLC explicitly does not provide:
    - Individualized computer hardware, operating system, or device troubleshooting.
    - Personalized installation, account setup assistance, or technical configuration services.
    - One-on-one trading coaching, financial advice, or personal mentorship.
- **1.3 Performance & Fulfillment Standard:** Software delivery and contractual performance by the Company are deemed complete once the digital asset, access key, or script permissions are successfully generated and deployed to the User's designated account on the host platform (e.g., TradingView, TradeLocker, or associated platforms). The User assumes full responsibility for maintaining compatible hardware, internet connectivity, and operating environments necessary to execute the software.

SECTION 2: AUXILIARY COMMUNITY ACCESS & EXPERIENCES

- **2.1 Supplemental Perks:** As a non-guaranteed, discretionary benefit of active software licensing, Users may be granted access to auxiliary communication channels, trade rooms, and social group environments (e.g., chat rooms, Facebook groups, or live message boards).
- **2.2 As-Available Basis:** Access to secondary community spaces is provided strictly on an “as-is” and “as-available” basis. V888 Collective LLC reserves the right to alter, suspend, restructure, or discontinue any trade room, chat environment, or community

feature at any time without prior notice or financial liability. Community access does not constitute a primary contractual deliverable of the software license.

SECTION 3: NO-REFUND POLICY & SUBSCRIPTION OBLIGATIONS

- **3.1 Finality of Digital Sales:** Due to the immediate, non-tangible, and irrevocable nature of digital software access, digital media, and proprietary intellectual property, **all sales, subscription fees, and initial membership charges are strictly non-refundable**.
- **3.2 Subscriber Responsibility for Cancellation:** Subscriptions operate on an automated recurring billing cycle. The User retains exclusive obligation and liability for managing, maintaining, or canceling subscription privileges prior to the designated renewal timestamp. Cancellations must be executed directly via the User's Whop account management dashboard.
- **3.3 Non-Qualifying Events:** Failure to utilize the software, non-participation in auxiliary trade rooms, personal hardware incompatibility, or failure to cancel prior to a billing renewal date shall under no circumstances serve as valid grounds for a refund, credit, or chargeback.

SECTION 4: PAYMENT DISPUTES, FRAUD ENFORCEMENT & TELEMETRY

- **4.1 Unauthorized Chargebacks & Fraud:** Initiating a financial payment dispute or chargeback with a credit card merchant or banking institution under fraudulent, misleading, or deceptive premises (including false claims of "unauthorized transaction," "item not received," or "failure to cancel") constitutes a material breach of contract and financial misrepresentation.
- **4.2 Consent to Digital Evidence Telemetry:** In the event of a payment dispute, User explicitly authorizes V888 Collective LLC to capture, store, and transmit technical audit logs and digital telemetry to card issuers, payment processors, merchant gateways, and legal representatives. Transmitted evidence shall include, but is not limited to:
    - User IP address and geolocation data at time of checkout.
    - Device header metadata and system access timestamps.
    - Linked TradingView and broker platform account identifiers.
    - Platform login history and digital license activation records.
- **4.3 Legal & Administrative Remedies:** Any account associated with an unauthorized payment dispute will be subject to immediate software license termination, automated webhook revocation, and permanent ecosystem blacklisting via Whop Trust & Safety. V888 Collective LLC reserves the right to initiate civil litigation to recover all disputed balances, bank administrative fees, collection costs, and legal fees incurred as a result of malicious payment disputes.

SECTION 5: COMMUNITY STANDARDS & RIGHT OF TERMINATION

- **5.1 Unilateral Discretionary Termination:** Access to services provided by V888 Collective LLC is granted at the sole discretion of the Company. The Company maintains an absolute right to suspend, restrict, or permanently revoke software permissions and

community access to any individual at any time, with or without cause, to protect business operations, technical infrastructure, and platform integrity.
- **5.2 Code of Conduct:** Members are required to maintain civil, professional decorum within all auxiliary spaces. Harassment of staff or community members, dissemination of defamatory claims, intentional business disruption, or failure to comply with basic risk management standards will result in immediate service termination without right of refund.
- **5.3 Proprietary Intellectual Property:** All software code, logic, indicator configurations, branding, and educational text remain the exclusive intellectual property of V888 Collective LLC. Unauthorized copying, distribution, decompilation, reverse engineering, or resale of any software or documentation is strictly prohibited under applicable copyright and trade secret law.

SECTION 6: SUPPORT PROTOCOLS & OPERATIONAL HOURS

Technical inquiries regarding software authorization, licensing, or script activation must be submitted through official support channels during designated business operating hours.

- **Official Support Schedule:** Monday through Friday | 8:00 AM CST – 4:00 PM CST (Excluding Federal Holidays).
- **SLA Response Window:** Support inquiries are processed within 24 to 48 business hours.
- **Support Protocol:** Requests must be submitted via personal direct message within the Whop platform dashboard. User must ensure their exact TradingView identifier is correctly registered in the application settings prior to requesting license provisioning.

SECTION 7: OFFICIAL CORPORATE LINKS & RESOURCES

- **Application & License Management:** Whop System Access Portal
- **Affiliate Portal & Terms:** Affiliate Application Form | Whop Affiliate Dashboard
  (Commission Disbursal Route: Profile $\rightarrow$ Balance $\rightarrow$ Withdraw $\rightarrow$ Standard $\rightarrow$ Bank Transfer-Next Day)

SECTION 8: FINANCIAL DISCLAIMER & LIMITATION OF LIABILITY

V888 Collective LLC provides software indicators and analysis tools strictly for educational and analytical purposes. The Company does not execute trades on behalf of Users, does not handle investor funds, and does not provide financial advice, market forecasting, or legal guidance. Trading in financial markets, foreign exchange, futures, derivatives, and contracts for difference (CFDs) carries significant risk of financial capital loss and is not suitable for all individuals. Past trading results generated using automated indicators or manual strategies do not guarantee future performance. V888 Collective LLC shall not be held liable for any trading losses, market damage, or financial liabilities incurred directly or indirectly from the use of its software products.
