

VKTRADING — REFUND POLICY

This Refund Policy applies to all products and services offered by VKTRADING, including memberships, courses, signals, digital content, and subscription-based services.

1. ALL SALES ARE FINAL

- Due to the nature of digital products and instant access to educational trading content, all purchases are final.
- VKTRADING does not provide refunds for memberships, subscriptions, courses, signals, or any digital products.

2. DIGITAL ACCESS

- Upon purchase, members receive immediate access to digital materials, community access, or educational services.
- By completing a purchase, you acknowledge that you waive any right to cancel or request a refund.

3. SUBSCRIPTION CANCELLATION

- Recurring memberships may be cancelled at any time.
- Cancellation will stop future billing but does not result in a refund for the current billing cycle.
- Access will remain active until the end of the paid period.

4. CHARGEBACKS AND PAYMENT DISPUTES

- Members agree not to initiate chargebacks or payment disputes through their bank or payment provider.
- If a chargeback occurs, VKTRADING reserves the right to immediately terminate access to all services.
- VKTRADING may pursue recovery of disputed amounts and associated fees.

5. BILLING ERRORS

- If you believe a billing error occurred, you must contact VKTRADING support before initiating a payment dispute.
- Legitimate billing errors will be reviewed and resolved in good faith.
