

DIGITAL PRODUCTS REFUND POLICY

1. All Sales Are Final (No Refunds)

Due to the non-tangible, digital nature of our products—including but not limited to TradingView indicator access, Pine Script codes, and trading analytical tools—all sales are final. Once access is granted or authorization is delivered to your designated account, the service is considered fully performed. Under no circumstances will refunds, returns, exchanges, or cancellations be granted.

2. Not Financial Advice (NFA) & Risk Disclaimer

* All tools, indicators, signals, and content provided are strictly for technical analysis and educational purposes only. Nothing provided constitutes financial, investment, legal, or trading advice.

* Past performance of any trading indicator or backtest result does not guarantee future success. Financial trading involves substantial risk of loss. You are solely responsible for your own trading decisions and financial outcomes.

* The seller shall not be held liable for any direct, indirect, or consequential financial losses resulting from the use of these tools. Financial loss does not qualify as a valid ground for a refund or dispute.

3. Dispute and Chargeback Policy

By proceeding with the checkout, you explicitly acknowledge and agree to this No-Refund Policy. Any unauthorized chargeback or dispute initiated through your payment provider or bank will be formally contested. We will submit system activity logs, access records, and this signed agreement to Whop and card issuers as conclusive proof of fulfillment. Fraudulent disputes will result in immediate and permanent revocation of product access.
