REFUND POLICY

Clear review rules for digital TradingView access

This page explains how AGProLabs reviews cancellation, duplicate-payment, incorrect-delivery and refund requests for digital access products.

Last updated: July 10, 2026

REQUEST OVERVIEW

The activation status matters

Every request is reviewed against the order record, access status, applicable law and payment-provider rules.

BEFORE ACTIVATION

Contact us promptly

If access has not been activated, send the order details as soon as possible.

[Skip to content](#)

AFTER ACTIVATION

Digital access has been supplied

Once access has been activated or supplied, refund eligibility may be limited where permitted by applicable consumer law.

Eligible requests will be reviewed before delivery.

ORDER PROBLEM

Errors are investigated

Duplicate charges, incorrect product delivery or failure to supply purchased access will be investigated and corrected.

Digital access products

AGProLabs products are digital TradingView access services that may be activated shortly after payment. Review the product page, access term, TradingView requirements and payment route before purchasing.

Market outcomes are not product defects

Dissatisfaction with trading performance, market behavior or personal interpretation is not evidence that a digital product is defective. AGProLabs does not promise a trading result, profit or prediction.

Mandatory consumer rights remain

Nothing in this policy removes or limits mandatory consumer rights that cannot legally be waived. Eligibility is assessed using the circumstances of the request and the law applicable to the transaction.

REQUEST A REVIEW

Skip to content

complete request

Include the following information so AGProLabs can locate and evaluate the correct order.

- Order number and checkout email
- Purchased product name and access term
- TradingView username submitted at checkout
- Reason for the request and any relevant payment proof
