

Terms of Service

Validation-stage upload document

1. Acceptance of these Terms

Effective date: August 9, 2026. By using the MindRank website, joining the waitlist, purchasing a founding reservation, or later using the MindRank service, you agree to these Terms of Service. If you do not agree, do not use the service.

MindRank is currently a working product name and the consumer app is still in development. These terms use "MindRank," "we," "us," and "our" to refer to the operator of the MindRank validation service. Before public launch, replace the bracketed operator/contact fields below with the final legal entity name, mailing address, support email, and governing jurisdiction.

2. What MindRank is

MindRank is a friend-first competitive mental-skills game in development. The planned game uses short matches across Logic, Memory, Verbal, Spatial, and Knowledge. Any Mind Rating, category rating, rank, score, or result is an in-game measurement only. MindRank is not an IQ test, medical or psychological assessment, education credential, or promise of cognitive improvement.

3. Eligibility and accounts

- The primary intended audience is age 16 and older. Where local law requires a higher age to consent to online services, a parent or legal guardian must provide any required consent.
- You must provide accurate information when an account or purchase requires it and keep your login credentials secure.
- You may not impersonate another person, misuse another person's account, or use the service for unlawful activity.

4. Fair play and acceptable use

- Do not cheat, automate answers, exploit bugs, interfere with timing or matchmaking, scrape protected content, reverse engineer security measures, harass other users, or attempt unauthorized access.
- Private Clubs and social features may have additional moderation rules. MindRank may remove content, restrict features, suspend accounts, or preserve evidence where reasonably necessary for safety, integrity, or legal compliance.
- Ranked play is intended to use the same questions and timing for opponents. We may invalidate results affected by cheating, technical errors, abuse, or material integrity failures.

5. Founding reservation and payments

During validation, MindRank may offer a \$5 founding reservation through a third-party hosted checkout. The reservation is for a product in development, not a representation that a finished app is currently available. Any stated testing or release window is an estimate and not a guarantee. The specific founder benefits shown at checkout control if they differ from general promotional descriptions.

Payment processing is handled by the checkout provider under its own terms. MindRank does not need to receive full payment-card details.

6. Refunds

Founding reservations are subject to the separate Return & Refund Policy. Unless a more favorable rule is displayed at checkout, a purchaser may request a refund before public release. Refunds may also be issued where required by applicable law.

7. Intellectual property

MindRank's software, branding, artwork, question content, interface, documentation, and other original materials are protected by applicable intellectual-property laws. These Terms do not transfer ownership to you. You receive only a limited, personal, revocable right to use the service as permitted by these Terms.

8. User content and sharing

If the service lets you submit a profile name, avatar, Club name, reaction, or other content, you keep ownership of your content. You grant MindRank a limited license to host, display, process, and transmit that content only as reasonably necessary to operate, secure, and improve the service. You are responsible for having the rights needed to submit it.

9. Privacy

Our collection and use of personal information is described in the Privacy Policy. MindRank's product doctrine is not to sell individual cognitive-performance profiles or friend graphs.

10. Availability and changes

The service is under development and may change, pause, contain errors, or be discontinued. Features, question sets, scoring, divisions, seasons, and availability may change as testing continues. We will not retroactively describe experimental or placeholder statistics as verified facts.

11. Disclaimers

To the maximum extent permitted by law, the service is provided on an "as is" and "as available" basis. We do not guarantee uninterrupted availability, a particular rating, matchmaking result, rank, learning outcome, or release date. Nothing in these Terms excludes rights that cannot legally be excluded.

12. Limitation of liability

To the maximum extent permitted by applicable law, MindRank and its operator will not be liable for indirect, incidental, special, consequential, or punitive damages arising from use of the service. Any limitation applies only to the extent legally enforceable and does not limit liability that law does not permit us to exclude.

13. Termination

You may stop using the service at any time and may request account deletion where available. We may suspend or terminate access for material violations, fraud, security threats, cheating, abuse, or legal requirements. Provisions that by their nature should survive termination will survive.

14. Governing law and disputes

Governing law and venue: [INSERT FINAL JURISDICTION BEFORE PUBLIC USE]. Consumer rights that apply in your place of residence remain unaffected where they cannot be waived.

15. Contact

Operator: [INSERT LEGAL ENTITY / OPERATOR NAME]
