

PIXELBYTESLAB

TERMS OF SERVICE

Last updated: August 13, 2026

These Terms of Service (the "**Terms**") govern your purchase of, access to, and use of digital products, templates, files, resources, memberships, software-enabled resources, and other offerings made available by **PixelBytesLab** through Whop or any website or checkout page operated for PixelBytesLab. By purchasing or using an offering, you agree to these Terms and any product-specific terms shown on the applicable product page or checkout.

1. About PixelBytesLab

PixelBytesLab provides digital products and resources, which may include templates, printable files, productivity systems, Notion resources, business toolkits, AI-related resources, guides, and other downloadable or access-based products. Questions can be sent to support@pixelbyteslab.com.

2. Eligibility and Account Information

You must be legally capable of entering into a binding contract in your place of residence. You agree to provide accurate information at checkout and to keep any account credentials or access links secure. You are responsible for activity under your account except where caused by our own security failure.

3. Orders, Pricing, and Payment

Prices, currencies, included content, billing frequency, and applicable taxes are shown at checkout. Payments may be processed through Whop and its payment partners. Your use of Whop is also subject to Whop's own terms and policies. We may correct obvious pricing or listing errors before fulfillment and may refuse or cancel an order where reasonably necessary for fraud prevention, legal compliance, sanctions compliance, or platform safety.

4. Delivery and Access

Digital products are delivered electronically, typically through Whop, a download link, a gated resource, an email, or another method stated on the product page. You are responsible for using a compatible device, software, and internet connection. If access fails for a reason within our control, contact us and we will make reasonable efforts to restore access or provide a replacement.

5. License and Permitted Use

Unless a product listing expressly grants broader rights, each purchase gives the buyer a limited, revocable, non-exclusive, non-transferable license to use the product for the buyer's own personal or internal business use. Ownership of the underlying product and intellectual property does not transfer to the buyer.

- You may download, use, and reasonably customize a purchased product for your own permitted use.
- You may not resell, redistribute, sublicense, share, publish, upload to a shared repository, or give away the original or substantially similar source files.
- You may not claim the product, its design, or its underlying content as your own intellectual property.
- Any commercial-use, resale, PLR, MRR, team, client, or extended-license rights apply only when expressly stated on the product page.

6. Intellectual Property

All intellectual property rights in PixelBytesLab's branding, original product content, designs, graphics, templates, documentation, and other materials remain with their respective owners. Third-party trademarks, platforms, fonts, stock assets, or software may be subject to separate licenses and are not transferred by your purchase.

7. Product Changes and Updates

We may improve, update, reorganize, or discontinue products or features. A one-time purchase does not include a promise of indefinite updates, future features, or lifetime support unless the product page expressly says otherwise. Where ongoing access is a material part of the purchased offer, we will act reasonably and in accordance with applicable law.

8. Subscriptions, If Offered

If a product is sold as a recurring subscription, the billing interval and renewal terms will be displayed at checkout. You may cancel future renewals using the available Whop account controls or by contacting support. Cancellation stops future billing but does not automatically create a refund for a completed billing period, except where required by law or our Return Policy.

9. Refunds and Returns

Refund eligibility is governed by the PixelBytesLab Return Policy, any product-specific promise, applicable law, and any decision made through Whop's Resolution Center or payment-dispute process. Nothing in these Terms limits rights that cannot legally be waived.

10. Acceptable Use

You may not use our products or services to infringe intellectual property, violate privacy or publicity rights, facilitate fraud, malware, harassment, unlawful discrimination, illegal activity, or any use prohibited by Whop or applicable law.

11. Third-Party Services

Some products may integrate with or reference third-party services such as Notion, Canva, Google, social platforms, AI providers, or other software. Those services are independent from PixelBytesLab and may change their features, pricing, or availability. We do not control third-party platforms and are not responsible for outages or changes outside our control.

12. Disclaimers

Unless expressly stated otherwise, products are provided on an "as available" basis. We do not guarantee specific revenue, traffic, productivity, business, educational, employment, or other outcomes. Templates, prompts, guides, and examples are general resources and are not legal, tax, financial, medical, or other regulated professional advice.

13. Limitation of Liability

To the maximum extent permitted by applicable law, PixelBytesLab will not be liable for indirect, incidental, special, punitive, or consequential losses, or for lost profits, lost data, or business interruption arising from use of a product. To the maximum extent permitted by law, PixelBytesLab's aggregate liability relating to a specific purchase will not exceed the amount actually paid for that purchase. Some jurisdictions do not allow certain exclusions, so these limits apply only to the extent lawful.

14. Suspension or Termination

We may suspend or terminate access for material breach of these Terms, fraud, abusive conduct, unauthorized redistribution, or legal/platform compliance reasons. Where appropriate, we may first provide notice and an opportunity to cure.

15. Changes to These Terms

We may update these Terms from time to time. The version in effect at the time of a purchase generally governs that purchase, unless a change is required by law or is accepted by you. Updated terms will be posted or uploaded with a revised date.

16. Governing Law and Mandatory Consumer Rights

These Terms are governed by the laws of Jordan, without regard to conflict-of-law rules, except that mandatory consumer protection rights in your place of residence continue to apply where they cannot lawfully be excluded. Before starting formal legal proceedings, you agree to make a reasonable effort to resolve the issue through PixelBytesLab support and, where applicable, Whop's Resolution Center.

17. Contact

For questions about these Terms or a purchase, contact **support@pixelbyteslab.com**.
