

EZ Algo — Return & Refund Policy

Effective Date: June 9, 2025

Overview

EZ Algo provides digitally delivered trading tools and indicator access. Due to the instant and non-reversible nature of digital product delivery, all sales are final. Please read this policy carefully before completing your purchase.

All Sales Are Final — No Refunds

WE DO NOT OFFER REFUNDS, RETURNS, EXCHANGES, OR CREDITS OF ANY KIND.

Once a purchase is completed and access has been granted, the transaction is final regardless of circumstances. This applies to all products and subscription tiers offered by EZ Algo, including but not limited to:

- EZ Pro Monthly
- EZ Pro Annual
- EZ Pro Lifetime
- Any other current or future product offerings

No Refunds Will Be Issued For

- Change of mind after purchase
- Lack of use or inactivity
- Dissatisfaction with trading results or signal performance
- Accidental purchases
- Duplicate purchases
- Inability to access TradingView or any third-party platform
- Technical issues outside of our control
- Subscription renewals — you are responsible for cancelling your subscription before renewal

Subscription Cancellation

You may cancel your subscription at any time through your Whop account dashboard. Cancellation will stop future billing charges. No refund will be issued for the current billing period already paid, and access will continue through the end of that period.

Chargebacks

Initiating an unauthorized chargeback or payment dispute will result in immediate and permanent termination of your access to all EZ Algo products and services. We reserve the right to dispute any fraudulent chargebacks and report abuse to payment processors.

Exceptions

We reserve the sole discretion to issue store credit or partial accommodations in extraordinary circumstances. This is not a guarantee and should not be expected. No exceptions are made to the no-refund policy for reasons listed above.

Questions

If you have questions before purchasing, please reach out to us at support@ezalgo.pro or via our Discord community before completing your transaction.
