1. Digital product

TradeClone is digital software supplied with a licence and delivered electronically through Whop.

2. All sales are final

Because the Software is digital and is made available for download and use immediately after purchase, all sales are final and non-refundable, except where a refund is required by law.

3. Your right to cancel and why it does not apply after download

Consumers in the UK normally have a 14-day right to cancel a purchase of digital content. However, by purchasing and then downloading, installing or activating the Software, you expressly request that supply begins immediately and you acknowledge that you lose the 14-day right to cancel once supply has begun. You confirm this when you accept these terms at checkout. If you have purchased but not yet downloaded, installed or activated the Software, contact us at leobradley23@gmail.com.

4. Subscriptions

If the Software is sold on a subscription, you can cancel future renewals at any time through Whop. Cancelling stops future charges; it does not refund the current period, and your access continues until the end of the period you have already paid for.

5. Faulty or misdescribed software

Nothing in this policy affects your statutory rights. If the Software is faulty, not as described, or does not perform as a reasonable person would expect, you may be entitled to a repair, replacement or refund under the Consumer Rights Act 2015. Please contact us first so we can try to resolve the issue.

6. Before requesting a chargeback

If you have any problem, please contact us at leobradley23@gmail.com before raising a dispute or chargeback with your bank or Whop, so we have the chance to help.

7. Contact

For help, you can reach us through our Discord server (linked from tradeclone.net). Refund and cancellation queries should be sent by email to leobradley23@gmail.com.
