Terms of Service

Leo Bradley (an individual trading as LDT)
Product: TradeClone | Website: tradeclone.net | Contact: leobradley23@gmail.com
Last updated: 7 June 2026

1. About these Terms

These Terms of Service ("Terms") govern your purchase and use of TradeClone (the "Software"), a trade-copying add-on for the NinjaTrader 8 platform supplied by Leo Bradley, an individual trading as LDT ("we", "us", "our"). By purchasing, installing or using the Software you agree to these Terms. If you do not agree, do not purchase or use the Software.

2. The Software

TradeClone is a software tool that mirrors orders and positions from one trading account (the leader) to one or more other accounts (the followers) within NinjaTrader 8, with configurable quantity scaling. The Software is a tool only: it executes the copy logic you configure and does not make trading decisions for you.

The Software requires a separate, valid licence and installation of NinjaTrader 8, which you must obtain yourself. We are not affiliated with, endorsed by, or sponsored by NinjaTrader. "NinjaTrader" is a trademark of its respective owner.

3. Eligibility

You must be at least 18 years old and have the legal capacity to enter into this agreement. You are responsible for ensuring that your use of the Software, and of automated trade copying, is lawful in your jurisdiction and complies with the rules of your broker and exchange.

4. Purchases, billing and subscriptions

The Software is sold and distributed through Whop. Payment is processed by Whop and/or its payment partners; we do not receive or store your card details. Where the Software is offered on a subscription, your access continues only while your subscription/membership is active and paid. Renewals, cancellations and billing are handled through Whop and subject to Whop's own terms.

Your right to use the Software is also subject to the End User Licence Agreement (EULA), which applies in addition to these Terms.

5. Not financial advice

The Software is a software tool and nothing we provide constitutes financial, investment, tax or trading advice. We do not recommend any trade, strategy, instrument or leader account to copy, and we do not manage your account. All trading decisions, configurations and outcomes are yours alone.

6. Risk disclosure

Trading futures, derivatives and other leveraged instruments involves a substantial risk of loss and is not suitable for everyone. You can lose some or all of your capital, and potentially more than your initial deposit. Only trade with money you can afford to lose. Past performance is not indicative of future results, and no profit or outcome is guaranteed. Automated copying can amplify losses as well as gains, including across multiple accounts simultaneously.

7. Software provided "as is"

The Software is provided on an "as is" and "as available" basis. We do not warrant that it will operate without interruption or error, or that orders will be copied accurately, completely, in time, or at all. Copying may be affected by software defects, latency, your hardware, your internet connection, NinjaTrader, your broker or data feed, or other third-party factors outside our control, which can result in missed, delayed, duplicated, partial or incorrect orders.

You are solely responsible for monitoring your accounts and open positions at all times, and you must test the Software thoroughly on simulation accounts before using it with real money.

8. Limitation of liability

To the fullest extent permitted by law, we are not liable for any trading losses, lost profits, lost opportunity, loss of data, or any indirect or consequential loss arising out of or in connection with the Software or these Terms, whether or not foreseeable. Our total aggregate liability to you for all claims shall not exceed the total amount you paid us for the Software in the twelve (12) months before the event giving rise to the claim.

Nothing in these Terms excludes or limits our liability where it would be unlawful to do so, including liability for death or personal injury caused by our negligence, or for fraud or fraudulent misrepresentation. This does not affect your statutory rights as a consumer.

9. Your responsibilities

You are responsible for correctly installing and configuring the Software, for the suitability of your trading setup, and for complying with all applicable laws, tax obligations, and the terms of NinjaTrader, your broker and any prop-firm or exchange whose accounts you connect.

10. Intellectual property

The Software and the TradeClone and LDT names and branding are owned by us and protected by law. These Terms grant you a right to use the Software under the EULA only; they do not transfer any ownership to you.

11. Support

We provide support on a reasonable-efforts basis through our Discord server (linked from tradeclone.net), through Whop, and by email at leobradley23@gmail.com, which remains our primary contact for any formal or written notice. We do not guarantee specific response times or that any particular issue can be resolved.

12. Suspension and termination

We may suspend or terminate your access if you breach these Terms or the EULA, if your subscription lapses, or if we reasonably suspect misuse, fraud or licence sharing. On termination your right to use the Software ends and you must stop using and remove it.

13. Changes to these Terms

We may update these Terms from time to time. The version published on tradeclone.net or supplied through Whop at the time of your purchase or renewal applies. Continued use after changes take effect constitutes acceptance.

14. Governing law and jurisdiction

These Terms are governed by the laws of England and Wales, and the courts of England and Wales have exclusive jurisdiction, save that if you are a consumer you may also benefit from mandatory protections of the country in which you live.

15. Contact

Questions about these Terms can be sent to leobradley23@gmail.com.
