

Return & Refund Policy

1. All Sales Are Final

Due to the proprietary nature of APEX FLOW and the fact that it is an instantly accessible digital software product, all sales are final and non-refundable.

2. Waiver of Right of Withdrawal (Digital Goods)

By completing your purchase, you explicitly consent to immediate access to the digital content. You acknowledge and agree that by downloading or gaining access to the APEX FLOW indicator, you lose your statutory right of withdrawal (often referred to as a cooling-off period). We cannot issue refunds once the intellectual property has been delivered or account access has been granted.

3. No Guarantee of Trading Results

Refunds will not be issued based on trading performance or dissatisfaction with market conditions. As explicitly stated in our Terms of Service, APEX FLOW is an analytical tool, and we do not guarantee profits or protect against losses. The inability to generate a profit using the indicator does not constitute a valid reason for a refund.

4. Chargebacks and Payment Disputes

We strictly enforce our Return Policy. Any attempt to bypass this policy via a bank or credit card chargeback will be considered a breach of contract. In the event of an unwarranted chargeback, we reserve the right to immediately and permanently revoke your license to use APEX FLOW and dispute the claim with the payment processor using your agreement to these terms as evidence.

5. Subscription Cancellation

If a subscription is canceled, the user will no longer receive new updates or feature enhancements. You may continue to use the version that was active at the time of cancellation until the end of your current subscription period.

End User License Agreement (EULA)

1. Grant of License

Upon purchase, you are granted a personal, non-exclusive, non-transferable, and revocable license to use the APEX FLOW software solely for your individual, personal trading activities.

2. Strict Usage Restrictions

To protect our intellectual property, you are strictly prohibited from:

Reverse Engineering: You may not decompile, decrypt, reverse engineer, or attempt to extract the source code or proprietary algorithms of APEX FLOW.

Distribution: You may not sell, rent, lease, sublicense, distribute, or otherwise transfer the software or your access credentials to any third party.

Derivative Works: You may not modify the software or use it to create a competing product or service.

3. Intellectual Property Rights

All intellectual property rights, including copyrights, trademarks, and trade secrets related to APEX FLOW, remain the sole and exclusive property of the creator. This EULA does not grant you any ownership rights in the software.

4. Disclaimer of Warranties ("As-Is" Clause)

APEX FLOW is provided on an "AS IS" and "AS AVAILABLE" basis. We make no representations or warranties of any kind, express or implied, regarding the operation of the software, its accuracy, or its reliability. We disclaim all implied warranties, including but not limited to warranties of merchantability and fitness for a particular purpose. We do not warrant that the software will be error-free, uninterrupted, or immune to changes made by third-party charting platforms (e.g., API updates).

5. Termination

We reserve the right to terminate this license immediately and without notice if you fail to comply with any term of this EULA or the Terms of Service. Upon termination, your access to the indicator will be revoked without any right to a refund.
