

End User License Agreement

Effective date: July 13, 2026 · Option Drops LLC

Plain-language summary (not a substitute for the full agreement): Your membership gives you a personal license to use the OD Key Levels Pro indicator and our member content for your own education. You do not own them, and you may not share, resell, redistribute, or reverse-engineer them. Access to the indicator is tied to one TradingView account. The license ends when your membership ends. Everything is educational, not financial advice.

01 Scope and relationship to the Terms of Service

This End User License Agreement ("EULA") is between you and Option Drops LLC ("Option Drops," "we," "us," or "our") and governs your use of the OD Key Levels Pro indicator for the TradingView platform, including its underlying Pine Script code, level data, methodology, outputs, and documentation (the "Indicator"), and all other member digital content we provide, including watchlists, levels, alerts, recaps, courses, and webinar materials (together with the Indicator, the "Licensed Materials").

This EULA supplements the Option Drops Terms of Service at optiondrops.com/terms, which are incorporated by reference. Capitalized terms not defined here have the meanings given in the Terms. If this EULA and the Terms conflict with respect to the Licensed Materials, this EULA governs. By purchasing a membership, accessing the Indicator, or using any Licensed Materials, you agree to this EULA.

02 License grant

Subject to this EULA, the Terms, and your payment of applicable fees, Option Drops grants you a limited, personal, non-exclusive, non-transferable, non-sublicensable, revocable license to access and use the Licensed Materials for your own individual, non-commercial educational use during the term of your membership.

Indicator access is granted to one (1) TradingView account owned and used by you. We may require your TradingView username to grant access and may change the delivery method of the Indicator at any time.

03 Restrictions

You may not, and may not permit or assist anyone else to:

- Share, sell, rent, lease, sublicense, transfer, or otherwise make the Licensed Materials or your access to them available to any other person, household, group, or entity;
- Copy, republish, redistribute, or publicly display the Indicator, its outputs, or any watchlists, levels, alerts, recaps, or other member content, in whole or in part, outside the Option Drops community;
- Reverse-engineer, decompile, disassemble, extract, or attempt to derive or recreate the Indicator's source code, level data, logic, or methodology, in whole or in part;
- Create derivative works based on the Licensed Materials;

- Use the Licensed Materials to build, train, power, or improve any competing product, indicator, signal service, community, dataset, or offering;
- Use bots, scrapers, or automated tools to collect the Licensed Materials; or
- Remove, alter, or obscure any proprietary notices.

Violation of this section is a material breach of this EULA and the Terms and may result in immediate termination of your license and membership without refund, in addition to any other remedies available to us, including claims for injunctive relief and damages.

04 Ownership

The Licensed Materials are licensed, not sold. Option Drops LLC and its licensors retain all right, title, and interest in and to the Licensed Materials, including all intellectual property rights. All rights not expressly granted in this EULA are reserved.

05 Platform dependency; updates and availability

The Indicator operates on the TradingView platform, which requires your own TradingView account and is governed by TradingView's terms and policies. We are not responsible for the TradingView platform, its availability, or changes it makes. We may update, modify, add to, or remove features of the Licensed Materials at any time, and we do not guarantee uninterrupted availability, or that the Indicator or its outputs will be accurate, complete, or error-free.

06 Educational use only; trading risk

The Licensed Materials, including all Indicator outputs, levels, and alerts, are provided for general educational purposes only and are not financial, investment, legal, or tax advice, nor a recommendation to buy or sell any instrument. Trading involves substantial risk of loss. Sections 4 through 6 of the Terms (educational purpose, risk disclosure, and performance disclaimers) apply fully to your use of the Licensed Materials, and you are solely responsible for your own trading decisions.

07 Term and termination

This EULA is effective when you first access the Licensed Materials and continues until your membership ends or is terminated, or until we terminate this EULA for your breach. Upon termination for any reason, your license ends immediately, your Indicator access will be revoked, and you must stop using and delete any copies of the Licensed Materials in your possession. Termination does not entitle you to any refund. Sections 3, 4, 6, 8, and 9 survive termination.

08 Disclaimers and limitation of liability

The Licensed Materials are provided "AS IS" and "AS AVAILABLE," without warranties of any kind, as set out in Section 18 of the Terms. Our liability in connection with the Licensed Materials is limited as set out in Section 19 of the Terms, which excludes trading and investment losses and caps our total liability.

09 Governing law and disputes

This EULA is governed by the laws of the State of Tennessee as described in Section 22 of the Terms. Any dispute arising out of or relating to this EULA or the Licensed Materials is subject to the informal resolution, binding individual arbitration, and class action waiver provisions of Section 21 of the Terms, including the 30-day arbitration opt-out described there.
