

Return and Refund Policy

Effective date: July 13, 2026 · Option Drops LLC

Plain-language summary (not a substitute for the full policy): All purchases are final and non-refundable because you receive immediate access to digital content and the community. You can cancel at any time to stop future renewals and you keep access until the end of your current billing period. Cancelling does not refund amounts already paid. If you have a billing question, contact help@optiondrops.com before disputing a charge.

01 Scope

This Return and Refund Policy applies to all purchases of Option Drops products and services, including Premiere Access memberships (monthly, quarterly, and annual, including renewals), the mentorship program, courses, webinars, indicator access, and any other digital content or service sold by Option Drops LLC ("Option Drops," "we," "us," or "our"). This policy is part of, and uses the same language as, Sections 12 and 13 of our Terms of Service at optiondrops.com/terms. If you purchased through Whop, your purchase is also subject to Whop's terms.

02 All sales are final

ALL PURCHASES OF ANY OPTION DROPS PRODUCT OR SERVICE ARE FINAL AND NON-REFUNDABLE.

Because you receive immediate access to digital content, community access, and proprietary materials upon purchase, we do not issue refunds, credits, or exchanges under any circumstances, whether or not you use the services, except where a refund is required by applicable law.

03 Cancellation is not a refund

Memberships renew automatically at the end of each billing period at the then-current price until you cancel. You may cancel at any time through your Whop account settings; cancellation stops future renewals and takes effect at the end of your current billing period, and you keep access until then. It is your responsibility to cancel before a renewal date if you do not wish to renew.

Cancelling does not entitle you to a refund, in whole or in part, of any amount already paid, including for unused time in a current billing period, forgotten renewals, quarterly or annual plans, or dissatisfaction with the services or with your own trading results.

04 Chargebacks

By purchasing, you agree to contact us first regarding any billing question or problem, and you agree not to initiate a chargeback or payment dispute for any charge you authorized or that was made in accordance with our Terms of Service. Initiating a chargeback in violation of this policy is a material breach of the Terms. If you do so, we may suspend or permanently terminate your access to all services, contest the dispute, and submit evidence of your agreement to the Terms and this policy (including checkout acknowledgments, timestamps, IP address, and access logs) to the payment processor and card networks, and we may recover from you any amounts, fees, and costs resulting from an illegitimate dispute, to the extent permitted by law.

05 Consumers with statutory withdrawal rights

If you are located in a jurisdiction (such as the EU, EEA, or UK) that grants a statutory right to withdraw from a contract for digital content or services, then by completing your purchase and requesting immediate access you expressly consent to immediate performance and delivery of the digital content and services, and you acknowledge that you thereby lose your right of withdrawal to the fullest extent permitted by law once access has been provided. Nothing in this policy limits rights that cannot be waived under applicable mandatory consumer protection law.

06 Questions

If you have a question or problem with a charge, email help@optiondrops.com and we will work with you to resolve it. Most billing concerns can be resolved quickly this way.
