Bravo Backtest – Terms and Conditions

Overview
These Terms and Conditions ("Terms") govern your use of the Bravo Backtest website and services ("Services"). Throughout these Terms, "Bravo Backtest", "we", "us", and "our" refer to Bravo Backtest.

By accessing our website, communicating with us, or purchasing any service, you agree to be bound by these Terms. If you do not agree, you may not use our Services.
Nature of the Service

Bravo Backtest provides custom analytical and technical services based entirely on trading rules supplied by the client. Our services include coding TradingView indicators according to client-defined rules, performing historical market backtesting, generating trade statistics and performance data, maintaining structured trade logs, and delivering a custom Notion database for organisation of results.

We do not provide trading signals, trade execution, brokerage services, portfolio management, financial advisory services, or investment recommendations. We do not access or interact with any client trading account.

No Financial Advice
All content, data, backtests, statistics, indicators, and materials provided by Bravo Backtest are for informational and educational purposes only.

Nothing we provide constitutes financial advice, investment advice, trading advice, or a recommendation to buy or sell any financial instrument. You acknowledge that you are solely responsible for all trading decisions and outcomes.

Risk Disclosure
Trading financial markets involves substantial risk. You may lose part or all of your capital. Historical performance, backtests, and statistical outcomes do not predict future results. A strategy that performed well historically may perform poorly in live market conditions.

No Performance Guarantee
Bravo Backtest makes no guarantees regarding profitability, win rate, drawdowns, prop firm evaluation success, funded account retention, or any future trading performance. You agree that any trading conducted using our data or software is done entirely at your own risk.

Legal Capacity
By purchasing a service, you confirm that you are legally able to enter into a binding agreement in your country of residence.

Client Responsibilities
The client must provide clear, complete, and accurate trading rules. We implement the strategy exactly as described by the client. If instructions are unclear, incomplete, or inaccurate, the resulting backtest may differ from expectations.

We are not responsible for differences caused by broker conditions, spreads, slippage, latency, market gaps, platform settings, execution timing, or user interpretation.

Custom Service and Refund Policy
All Bravo Backtest services are custom digital services created specifically for each client. Because the service is personalised and cannot be returned, once work has begun the order becomes non-refundable.

Refunds are not available after coding or backtesting has started. A refund may only be issued at our sole discretion before work begins. By purchasing, you acknowledge and agree that the service is bespoke and waive refund rights after commencement.

Client Cooperation
We may require clarification or confirmation of strategy rules before development or delivery. Failure to respond to reasonable communication requests may delay service delivery. Such delays do not constitute grounds for refunds or disputes.

Delivery Time
Typical delivery time is approximately 3–7 business days depending on strategy complexity and workload. Delivery estimates are not guaranteed timeframes.

Communication Requirements
After purchase, the client must provide a valid email address and Instagram username. This information is required so we can identify the client and communicate regarding strategy implementation and delivery. Failure to provide accurate contact information may delay service.

Business Status and Jurisdiction
Bravo Backtest operates as an independently owned online service based in Cape Town, South Africa, providing services directly under its trading name.
These Terms and any services provided are governed by and interpreted in accordance with the laws of the Republic of South Africa.

Limitation of Liability
To the fullest extent permitted by law, Bravo Backtest shall not be liable for trading losses, financial losses, lost profits, account failures, prop firm failures, missed opportunities, or any indirect or consequential damages arising from the use of our Services.

You agree that all use of the provided indicators, data, and backtesting results is entirely at your own risk.

Disputes and Chargebacks
You agree to contact Bravo Backtest before initiating a payment dispute or chargeback. We will make reasonable efforts to resolve any issue.

Initiating a chargeback after receiving delivered services or digital materials may be considered a breach of these Terms.

Confidentiality
We respect the confidentiality of client strategies. We will not publicly share, sell, or disclose a client's strategy logic or provided rules to third parties.

Intellectual Property
All website content, documentation, and materials remain the intellectual property of Bravo Backtest.

Clients receive a limited, non-transferable, non-exclusive personal-use licence for delivered materials. This includes, but is not limited to, the completed backtest results, all trade logs and statistical data, the custom Notion database, and any custom TradingView indicator code developed for the client.

The completed backtest, Notion database, custom TradingView indicator, and any associated materials may not be shared, copied, distributed, sublicensed, transferred, resold, published, made publicly accessible, or commercially exploited in any form without prior written permission from Bravo Backtest.

Third-Party Platforms
Bravo Backtest is not affiliated with, partnered with, endorsed by, or sponsored by Notion or TradingView. All trademarks remain the property of their respective owners. Use of these platforms is subject to their own terms and policies.

Payments and Discount Codes
Payment must be completed before work begins. Discount codes may be provided through

affiliates or promotions. We reserve the right to refuse service or cancel orders where codes are misused, shared publicly without permission, or obtained fraudulently.

Service Refusal
We reserve the right to refuse service, cancel an order, or terminate communication at our discretion in cases of abuse, harassment, fraud, or violation of these Terms.

Changes to Terms
We may update these Terms at any time. Continued use of our Services constitutes acceptance of any updated Terms.
