

Terms of Service & Disclaimer

This subscription grants access to proprietary trading scripts, indicators, educational material, and related tools. These products are not investment advice, trading advice, financial recommendations, or an offer to buy/sell any security or derivative. Information is provided strictly for educational and research purposes.

Trading futures, forex, crypto and other leveraged markets involves substantial risk and is not suitable for all investors. You may lose part or all of your capital. Past results — including backtests, performance metrics, win rates, profitability estimates, or examples of trades — are not indicative of future results.

You acknowledge that you alone are responsible for your trading decisions. We do not execute trades on your behalf and we do not guarantee performance, accuracy, or profitability of any script or signal. By purchasing or using this service, you voluntarily accept all associated risks and agree that we are not liable for financial losses, missed opportunities, system errors, or any damages resulting from the use of our tools.

By continuing, you confirm you have read and understood this disclaimer and agree to use these tools at your own risk.
