

Return Policy

Last updated: March 2026 · All sales are final. Please read before purchasing.

■ ALL SALES ARE FINAL. NO REFUNDS WILL BE ISSUED UNDER ANY CIRCUMSTANCES. BY PURCHASING YOU EXPLICITLY ACKNOWLEDGE AND ACCEPT THIS POLICY.

1. No Refund Policy

Due to the digital and intangible nature of the Software, all purchases are **final and non-refundable**. Once access to the Software has been granted, no refunds, partial refunds, credits, or exchanges will be provided under any circumstances, including but not limited to:

- X Change of mind or buyer's remorse
- X Dissatisfaction with features or functionality
- X Compatibility issues with your specific setup or Obsidian version
- X Failure to read the product description before purchasing
- X Software not performing as expected
- X Failure to successfully install the plugin
- X Lack of use after purchase
- X Updates not being released or not meeting expectations
- X Decision to use a competing product

2. Digital Product Nature

Local Trading Journal is a digital software product delivered electronically via a license key. Upon purchase you receive immediate access. Because the product is delivered instantly and cannot be returned, standard consumer return rights for physical goods do not apply.

3. No Obligation to Update

The Software is sold as a complete product at the time of purchase. The Seller may choose to release updates at their discretion but is under no obligation to do so. The absence of future updates does not constitute grounds for a refund.

4. Chargebacks and Disputes

■ Initiating a chargeback or payment dispute after receiving access to the Software constitutes fraud. The Seller reserves the right to revoke your license and report the dispute to Whop, and pursue recovery of the full purchase amount plus any associated fees.

5. Pre-Purchase Responsibility

It is your responsibility to read the full product description, review the installation guide, and ensure the Software meets your requirements before purchasing. The Seller provides sufficient information to make an informed decision.

■ Before purchasing, ensure you: · Have Obsidian v1.0.0 or later installed · Understand the manual installation process (see Installation Guide) · Have read the full product description on the Whop store page
