No Refund Policy (STRICT & FINAL)

Last Updated: November 26th, 2025

All sales are final. By purchasing access to this digital product or membership through Whop, you acknowledge and agree that **no refunds, chargebacks, or payment reversals** will be issued **under any circumstances**, including but not limited to:

- Changing your mind
- Not using or accessing the content
- Technical issues on your end
- Dissatisfaction with information or results
- Linking the wrong Discord account
- Failing to link your Discord account
- Not joining the server after purchase
- Losing access to your Discord account
- Being removed or banned for violating the Terms of Service
- Forgetting to cancel before renewal
- Attempting to switch Whop or Discord accounts after purchase
- Accessing or benefiting from the product for any amount of time

Instant Digital Delivery = Final Sale

Because this is a digital subscription product, **delivery is considered complete at the moment Whop processes your payment and provides your access credentials**, even if you do not finish linking your Discord or do not use the service.

This means **the sale is considered consumed and non-refundable** once:

- Your payment is processed
- Whop grants access on their end
- Whop delivers your login, credentials, or connection instructions

Your successful entry into the Discord server is **not required** for the transaction to be final.

You are fully responsible for:

- Linking the correct Discord account
- Maintaining access to your Discord account
- Following the instructions provided by Whop
- Ensuring your device, app, or software is functioning
- Troubleshooting your own user-side technical issues

User-side problems do **not** qualify for refunds.

Chargeback Attempts

Any attempt to dispute or reverse a payment (including via your bank, Stripe, or Whop) will result in:

1. **Immediate and permanent termination** of all access
2. **Submission of evidence** to Whop/Stripe, including:
 - o Proof of access being granted
 - o Your acceptance of these policies
 - o Login timestamp records
 - o IP logs and Discord data
3. **A permanent ban** from all future products/services
4. **Possible referral to collections** for the disputed amount plus fees

Chargebacks filed after accepting these terms are treated as **fraudulent**.

Subscription Management

Your membership will auto-renew unless canceled **before** the billing date. Canceling stops future charges, but **does not** qualify you for a refund of previous charges.

You are solely responsible for managing and canceling your subscription through Whop.

Agreement

By completing your purchase, you acknowledge that you have read, understood, and agreed to this **No-Refund Policy**, the **Terms of Service**, and all associated disclaimers.
